RE: PDD's 2004, 2005 & 2006 Jobs & Investment Monitoring Reports Industrial
Development District Tax Abatement (Public Act 198)

The Planning and Development Department (PDD) submitted a report dated September 7, 2007, relative to its 2004, 2005, & 2006 Public Act 198 Jobs and Investment Monitoring reports, based on the survey data the department received from the abatement recipients. PDD's reports are submitted under a separate cover.

Public Act 198

Public Act 198 of 1974, as amended, is a primary tool local units of government use as an incentive for companies to renovate and expand aging industrial (primarily manufacturing) plants or to build new plants in Michigan. The legislative body of the city, township, or village in which the facility will be located grants the abatement. For a rehabilitation project involving an obsolete plant or machinery, the Industrial Facilities Tax is based on the assessed value of the plant or machinery frozen at the level of the facility/machinery prior to improvement. The result is a 100% exemption from property tax on the value of any improvement.

For a new facility and/or machinery, the Industrial Facilities Tax reduces the local property taxes by 50%. Abatements covering both real and personal property and can run from one to twelve years, at the option of the local unit.

A recent amendment to this tax abatement law expands the definition of "Industrial Property" to include high-technology activity. Examples of "high-technology activity" are advanced computing, advanced materials, biotechnology, electronic device technology, engineering or laboratory testing, medical device technology, project research and development and advanced vehicles technology.

PDD's Findings

In the PDD report of September 7, 2007, the department stated it mailed out 184 surveys to the fifty-five companies that have received ninety-two abatements. The department stated that it mailed the surveys out March 13, 2007, however, less than 50% of the recipients returned the surveys. The department also cited a potential error rate of 5-10%, based on the number of surveys returned as undeliverable, due to closed buildings or changed addresses from the list provided by the Assessors Office.

In its report summary, PDD reported the following:

PDD Report Jobs Summary		
Projected Jobs Retained	Projected Jobs Created	Projected Retained & Created
24,992	1,681	26,673
Current Number of Jobs		<u>9,814</u>
Current Number of Jobs (Under Projections)		(16,859)

PDD Report Investment Summary

In its investment summary, PDD reports that the original investment committed by the abatements recipients at \$3.76 billion, and the actual investment to-date at \$1.76 billion (46.86%). Thereby leaving a net difference of \$2 billion under the projected investment projected by the abatement recipients.

The Planning & Development Department's recommendation is to defer to the City Council and Fiscal to determine if the enforcement provisions of the 198 agreements should be implemented, given the fact that over half of the abatement recipients have not responded to the survey.

Fiscal Analysis Review of PDD's Findings

Attachments 1-4 represent our analysis of the job information in PDD's report. Our review of the data submitted by PDD revealed the following. Every PA 198 Tax Abatement is approved with a corresponding number that reflects the number of jobs projected to retained and created. Several companies have received more than one abatement, some for different facilities and others for the same facility. Given the fact that the levels of employment and investment for each abatement agreement is tied to each company maintaining their respective tax abatements, we thought it was important to most accurately reflect the employment survey figures for each individual abatement facility. In our report, we have provided numbers that give a clear representation of what jobs were promised and how many individuals have been recorded as employees. To prevent double counting, our employment numbers are derived from accounting for projected and actual jobs at individual facilities, rather than counting up the totals of every abatement. We have used the most recent abatements for the projected and actual counts.

Our review revealed that two of the abatements listed in PDD's report should not be in the report. We noticed that the entries for Arca Systems 96-709 and Detroit Chassis 99-428 had duplicate abatement numbers as the correct abatements Perstorp Xytech Inc 96-709 and TruMack LLC 99-428. Therefore, Arca Systems 96-709 and Detroit Chassis 99-428 were submitted in error and should be removed from PDD's lists of jobs and investments. We therefore conclude that there should be 90 abatements listed rather than 92 as PDD has noted in its report.

Given the fact that some single facilities receive multiple abatements (a maximum of 3), we used the most recent promises for employment. Council is reminded, however, that of the 90 abatements listed in our jobs report, 47 (52%) have not returned surveys. Therefore, the data below is skewed, and does not accurately reflect how effective the PA 198 abatement program has been in retaining and creating jobs. As you can see below, the data indicates, all of the abatement recipients were issued abatements based on the projection of retaining 23,340 jobs, creating 1,470, for a total of 24,810 jobs. Based on the returned survey data, in 2006, there were surveys returned reflecting 9,785 jobs (39.44%). Of the 9,785 jobs, Detroit residents held 3,253

or 33.24% of the positions as the chart below reflecting all tax abatement employment data indicates:

Employment Data All Abatements

Proj Jobs Retained	Proj Jobs Created	Proj Jobs Total	Actual Jobs 2004	Actual Jobs 2005	Actual Jobs 2006	Actual Jobs Created/ (Lost) 2006	Actual Ovr/(Undr) Proj Jobs 2006	Detroit Residents 2006	Actual Proj Jobs 2006 % +/-	Detroit Resident%
23,340	1,470	24,810	11,151	11,009	9,785	(13,555)	(15,025)	3,253	39.44%	33.24%

In order to make an accurate assessment of the PA 198 tax abatement program we feel it is necessary to pursue the data from all the abatement recipients, given the fact that so many have failed to report.

Below is a listing of the abatement recipients that have not responded to the survey.

47 abatement recipients that have not responded to PDD's jobs and investment survey request:

Cert #	Company	Cert #	Company	Cert #	Company
94-065	All American Produce	00-522	Detroit Auto Interiors	97-418	Lorro (Meridian Auto Sysms)
00-692	American Axle & Manufacturing	96-713	Detroit Automotive Interiors	99-472	Mackie Automotive Systems
02-507	American Axle & Manufacturing	99-310	Detroit Salt	96-716	Milton Manufacturing
96-717	American Axle & Manufacturing	02-467	Diversified Machines Inc.	94-556	Palace Quality Services
99-722	American Axle & Manufacturing	00-274	DTI Molded Products	95-577	Quality Bakery Products
96-709	Perstorp Xytech Inc.	96-707	Euro-American Brewers	96-715	Regal Packing
01-447	Arvin Meritor	01-509	General Mill Supply	99-724	Regrind Services
01-508	Arvin Meritor	95-576	General Mill Supply	99-333	Ring Screw Textron
96-527	Bing Manufacturing	96-192	General Motors (Det/Ham)	97-564	Stylecraft Products
03-227	Coca Cola	98-674	General Motors (Det/Ham)	97-562	Uni Boring
00-549	Commonwealth Industries (Metadyne)	04-516	Hall Steel Company	98-725	Uni Boring
95-054	Continental Baking	96-714	Interstate Brands (Continental Baking 2001*)	98-356	Voss Lantz
99-427	Corver Engineering	96-470	JSP International	95-648	Winston - Morrow
03-574	Daimler Chrysler (Jefferson Assembly)	97-563	JSP International	03-237	Woodworth
97-641	Daimler Chrysler (McGraw Glass)	00-533	Kaufman Window & Door	93-549	Woodworth
00-693	Daimler Chrysler (New Mack II)	98-673	Lear		

In addition to the 47 abatement recipients that have not responded to PDD's jobs and investment survey request, there are two abatement recipients that have responded to the jobs survey, but have not

responded to the investment survey, and no jobs data as it relates to the number of Detroit residents:

Not responded to the investment survey only:

98-441	Caravan Technologies
98-671	Vitec

The IFEC (Industrial Exemption Certificate) Agreements spell out specific remedies in regard to a lack of reporting by abatement recipients. Section 3 of each IFEC agreement states that each applicant must submit an annual status report to the Planning & Development Department. Section 4 states "In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld."

Section 5 goes further and states, "The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City. Please contact us if Your Honorable Body requires any additional information". The section ends by stating, "Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement." A copy of an IFEC agreement is Attachment 8.

The 43 abatement recipients that did report, projected to retain 12,400 jobs, create 820 jobs, for a total of 13,220 projected jobs. The actual jobs for 2006 for the reporting abatement recipients were 9,785 jobs (74.02%). The current number of Detroit residents at those facilities is 33.24% as the chart below indicates:

Employment Data Responses Only

Proj Jobs Retained	Proj Jobs Created	Proj Jobs Total	Actual Jobs 2004	Actual Jobs 2005	Actual Jobs 2006	Actual Jobs Created/ (Lost) 2006	Actual Ovr/(Undr) Proj Jobs 2006	Detroit Residents 2006	Actual Proj Jobs 2006 % +/-	Detroit Resident%
12,400	820	13,220	11,151	11,009	9,785	(2,615)	(3,435)	3,253	74.02%	33.24%

Given the state of the current economic climate in Michigan, it is our opinion that the employment figures above for the responding abatement recipients only are respectable numbers. However, it may be prudent for City Council to hear from some of the abatement recipients on the reason why some of the actual jobs numbers are so low.

We divided the data in two of our charts, one for jobs and one for investment from the years 2001, to the most recent abatements from 2000 and before, in order to determine impact of the economy's downturn on the PA 198 program (Attachments 2 and 3). We found it difficult to identify a trend, due to the high number of non-responses.

Attachment 4 shows the job monitoring data for responders only.

Investment Data

The results of our review of the investment data are detailed below. As we stated earlier, without a significant number of the survey data submitted, it is difficult to draw a clear picture of the success of PA 198 (Attachments 5 & 6).

Original Investment	2004 Investment	2005 Investment	2006 Investment	Difference +/-(-) Projected Investment	% of Projected Investment
\$3,508,786,434	\$1,696,590,206	\$975,201,720	\$896,757,235	(\$1,812,196,228)	48.4%

Attachments 2 and 3 reveal that the number of abatements approved by your Honorable Body on an annual basis significantly dropped from 2000 to 2004. This indicates that companies cut back on new investment during the strenuous economic times they faced in the City of Detroit. Undoubtedly, the downsizing and restructuring that has occurred, and continue to occur, in the automobile industry is a huge factor in this.

Again, however, we think it would be helpful for Council to hear from a select group of abatement recipients why their investment numbers are significantly lower than projected.

Recommendation

It is our recommendation that the 47 delinquent job and investment survey abatement recipients, and the two delinquent investment survey abatement recipients be issued a letter as its final warning to either submit the employment and investment survey information to the Planning & Development Department by **January 21, 2008**, or be compelled to appear at a hearing before Your Honorable Body, in order for you to determine if the abatement recipient should receive a recommendation to have their abatement reduced or cancelled.

We have attached a letter for Council's review (Attachment 8), and approval, in order to have it mailed to the 47 non-compliant abatement recipients. Ideally, this will compel the to-date non-compliant companies to respond.

We further recommend that Council hear from a select group of abatement recipients as to why their actual employment and investment numbers are so low as compared to their projected numbers. We will attempt to present this information to the members of the Planning and Economic Development Committee whenever PDD/Fiscal Analysis presents this report.

We have one final item. In comparing the numbers from PDD's past reports, we have noticed a difference in the projected job numbers for Daimler Chrysler 02-250 and Olympic Steel Lafayette 95-491. PDD listed the following for its January 18, 2005 report:

January 2005 Report

Certificate Number	Company (Facility)	Proj Jobs Retained	Proj Jobs Created
02-250	Daimler Chrysler	2,456	12
95-491	Olympic Steel Lafayette	266	0

And PDD lists the following for the most recent September 7, 2007 report:

September 7, 2007

Certificate Number	Company (Facility)	Proj Jobs Retained	Proj Jobs Created
02-250	Daimler Chrysler	2,690	0
95-491	Olympic Steel Lafayette	281	0

Our question to the department is why the discrepancy in projections?

Please contact us if we can be of any further assistance.

INDUSTRIAL FACILITIES EXEMPTION CERTIFICATE AGREEMENT

THIS AGREEMENT, made this _____ day of _____, 2005, by and between the City of Detroit, acting by and through its Planning and Development Department ("the City") and Sherwood Food Distributors ("the Applicant").

WITNESSETH:

WHEREAS, the Applicant has submitted an Application ("Application") to the City for adoption of a resolution giving the City's approval to an Industrial Facilities Exemption Certificate ("IFEC"), pursuant to Public Act 198 of 1974, as amended, for real and personal property ("Facility") located at 18615 Sherwood Street, Detroit, Mi 48228 (A copy of the Application is attached hereto as Exhibit "A"); and

WHEREAS, The Applicant is making real and personal property improvements for the purpose of expanding capacity; and

WHEREAS, as part of its application for an IFEC, the Applicant has submitted an employment plan to the City of Detroit Human Rights Department (a copy of the employment plan is attached hereto as Exhibit "B") wherein it has represented that during the term of the IFEC it shall not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

WHEREAS, pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

WHEREAS, to encourage approval of the IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

1. General.

- a. The Applicant will complete the real and personal property improvements set forth in the Application.
- b. The Applicant will be required to maintain 323 full time employees at the Facility during first two years of the Approval Date.
- c. The Applicant will retain:
 - I) Three hundred and twenty three (323) full time employees for two (2) years from the Approval Date.
 - II) Three hundred and twenty three (323) full-time employees at the Facility commencing two (2) years from the Approval Date and throughout the term of this Agreement.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

2. Annual Affirmative Action Report by the Applicant.

On or before November 1st and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the

Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

3. Annual Status Report by the Applicant.

On or before February 1, 2006, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

4. Review and Audit of Applicant Employment Information.

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is substantially less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement.

6. Payment of Abated Taxes for Shortfall of Employment.

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

7. Reimbursement of City Costs upon Discontinuance of Operations.

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the amended Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

8. Living Wage Ordinance

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is attached as Exhibit "D" and made a part hereof, and the Applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

9. Prevailing Wage Requirements

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

10. Reservation of Remedies.

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

11. Effective Date.

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void and of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

12. Headings

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

Attachment 8

November 13, 2007

Tax Abatement Recipient
Industrial Facility
Detroit, Michigan

Dear Abatement Recipient:

It has come to the attention of the Detroit City Council that your company, Industrial Facility, which has received tax relief under Michigan Public Act 198, has failed to comply with several requests by the City of Detroit Planning & Development Department to complete its questionnaire on your current employment and or investment data as it relates to your tax abatement.

We, the Detroit City Council, are writing to you to inform you that this is your final notice to comply with the City of Detroit and to supply the requested survey information. Based upon the provisions of your tax abatement application and contract, you are required to report the aforementioned information, or be subject to a hearing before the Council to determine if your tax abatement will be recommended to the State Tax Commission for revocation or reduction.

It is our fervent hope that this step in the process will not be necessary. If you, however, choose not to comply, please be aware that the Detroit City Council is prepared to pursue this matter with the up most due diligence. We urge you to comply by January 21, 2008 and forward the enclosed questionnaire to the Planning & Development Department.

Sincerely,
